After Thoughts Of Hawaii As Told By One Who Saw The Place

What the people who visit the place are saying of Hawaii is pretty well set out in the following letter:

The State Bank of Aspen, David H. Moffatt, President; W. S. Cheesman, Vice President; T. G. Lyster, Cashier; O. S. Moore, Asst. Cashier, Aspen, Colorado, March 24th, 1906.

H. P. Wood, Esq., Secretary, Hawaii Promotion Committee, Honolulu, Hawaii.

My Dear Sir:—Your letter of the 23rd ultimo, I received just before leaving the island, so that I put off answering till my return home. I have not the gift of putting properly in words the impression made on me of the island of Oahu, and the city of Honolulu, that could do justice to either I found on my arrival "AN-UP-TO-DATE CITY," water works, electric lights, street cars (with polite employees), police, splendid hotels, railroads, telephone, public buildings, parks, and private dwellings with grand

grounds, plants, and palms, and elegant public roads all over the island. Beautiful flowers without limit, everywhere, and the beach near the Moana hotel perfect, but above all the people of the whole island, without exception, are courteous and kind to the stranger visiting the island. There is no city of the same size that I know of compared with your Honolulu.

The Floral Parade held on Washington's Birthday was the grandest I had ever seen. I have seen those held at Colorado Springs at different years and considered by our people as being very fine, but were not to be considered with the grand parade I saw 23rd ultimo in Honolulu. I would surely think you would continue the feature for the coming years.

Permit me personally to thank you for your kindness to Mr. Cheesman and myself during our five weeks' stay in your beautiful city.

Yours truly,
T. G. LYSTER.

ONE WEEK'S WEATHER

DECIDED AND GENERAL RISE IN TEMPERATURE

DRY FOR THIS SEASON — SOME RESTRICTIONS ON THE USE OF WATER FOR IRRIGATION.

For the Week Ending April 7, 1906.
Local Office, U. S. Weather Bureau,
Honolulu, T. H., April 9, 1906.

GENERAL SUMMARY.
The past week has been characterized by a decided and general rise in temperature, weekly averages in all sections of the group having been higher than during any previous week within the past month. The advance in temperature has been particularly marked in Maui and Oahu.

The week as a whole has been quite dry for this season of the year, the only showers of importance which have occurred being confined to portions of the Hilo district of Hawaii, the Koolau district of Maui and the Puna and northern districts of Kauai. On account of the continuance of the dry weather in the vicinity of Honolulu, it has become necessary to place restrictions on the use of water for irrigation purposes in some sections of the city. During the past week a tendency toward the resumption of trade winds has been evident, but thus far the windward showers which usually accompany these winds have not materialized.

REMARKS BY CORRESPONDENTS.
(Note: The figures following the name of a station indicate the day of the month with which the week's report closes.)

ISLAND OF HAWAII.

Kaunapali (5)—The weather has been very pleasant this week; rain has fallen every day or night except on the 3d and 4th; temperatures and wind direction have varied considerably; the weekly mean temperature was 68 deg., and the total rainfall .84 inch.—J. E. Gamalielson.

Ponahuala (5)—With the exception of light showers on the 30th and 31st ult., and the 5th inst., the weather has continued dry, with variable winds; temperatures were considerably higher than during the preceding week; the total rainfall was .50 inch.—J. E. Gamalielson.

Hilo (5)—The weather has continued quite dry; the weekly mean temperature was 72 deg., and the total rainfall .37 inch.—L. C. Lyman.

Papaikou (5)—The weather has been comparatively dry and hot; the total rainfall was 1.33 inches; the supply of water is low, and there are no signs of a good rain.—John T. Moir.

Papeete (5)—Temperatures were considerably higher during the past week, the weekly mean being 72 deg., the total rainfall was .73 inch.; a severe hail was observed at noon of the 1st inst., and distant lightning during the same evening.—W. H. Rogers.

Hakalau (5)—Warm days and cool nights have prevailed during the past week; the total rainfall was .57 inch.—J. M. Ross.

Honolulu (5)—The total rainfall was .40 inch.—John Patterson.

Papaioa (5)—The past week has been rather warm, with occasional light showers amounting in all to .30 inch.—C. McLennan.

Laysan (5)—The past week has been one of hot days followed by light showers at night, amounting in all to .70 inch; the sea has been calm; the water supply is very short.—E. W. Barnard.

Ookala (5)—Temperatures during

REAL ESTATE BARGAINS.

FOR SALE.

Ideal country home at Manoa Valley, surrounded by river; good bathing; 6r. cottage, barn, lawn, fruit trees, near car line; a bargain.

For \$650, I am authorized to sell 2.20 acres, with small house, off Nuuanu Ave. near car line; Free water; Real value \$2000.00. Owner is forced to sell.

FOR RENT.

11-2 story residence, 1213 Matlock Ave., 4 bedr., elec. wire, 1 block from 2 car lines, \$20. per m.

4r. cottage and servant b. at Waikiki beach, good bathing; \$10. per m. P. E. R. STRAUSS, Wally Building.

the past week have been considerably higher, the weekly mean being 69 deg.; .34 inch of rain fell on the 3d and 5th; we have had steady southeast winds.—W. G. Walker.

Panahau (5)—The past week has been one of equable temperatures and light trade winds, but with no rain.—Panahau Plantation Co.

Nihoa (5)—Light trade winds prevailed during the greater part of the week, but increased in force on the 5th; the weekly mean temperature was 72 deg., and the total rainfall .13 inch.—F. C. Paetow.

Kohala (5)—The weather has been considerably warmer during the past week, the days being quite sunny; the weekly mean temperature was 72 deg., and the total rainfall .40 inch.—W. G. Taylor.

Kohala Mission (6)—The weather has been somewhat warmer, with fairly sunny days; the weekly mean temperature was 70 deg., and the total rainfall .29 inch.—Dr. B. D. Bond.

Puakea Ranch (5)—Temperatures have been rather higher this week, with some rain amounting in all to .52 inch; variable winds prevailed during the fore part of the week, but now seem to have settled to northeast trades.—A. Mason.

Kaimuela (6)—The weekly mean temperature was 67 deg., the days being quite hot; trade winds set in during the latter part of the week; the total rainfall was .25 inch.—Mrs. E. W. Hay.

Kealahou (6)—The weekly mean temperature was 67 deg., the days being quite hot; trade winds set in during the latter part of the week; the total rainfall was .25 inch.—Rev. S. H. Davis.

Kealahou (5)—The weather has been sultry, with only .61 inch of rain.—Robert Wallace.

Naalehu (4)—There has been no break in the drought; the weather has continued dry, with trade winds and higher temperatures.—G. G. Kipney.

Pahala (4)—The weekly mean temperature was 70 deg., and the total rainfall .02 inch; the wind increased in force toward the latter end of the week.—H. D. Harrison.

ISLAND OF MAUI.

Hana (2)—The past week has been marked by decreasing cloudiness and rising temperature, with variable winds blowing northeasterly; there was no rainfall.—N. Omsted.

Nahiku (5)—The days have been warm and sunny, with northeasterly winds; the total rainfall was 1.55 inches.—C. O. Jacobs.

Huala (5)—Fair rains, amounting to 1.29 inches, fell during the early and late portions of the week; the weekly mean temperature was 67 deg.; the winds were generally northeasterly.—W. F. Pogue.

Hakua (5)—Moderate trade winds have prevailed throughout the week, with warm days, cool night, a fair degree of sunshine, and very little rain; there has been abundant rainfall, however, in the forests to the eastward, which has increased the water supply; the weekly mean temperature was 72 deg., and the total rainfall .23 inch.—D. D. Baldwin.

Pala (5)—With the exception of a fairly heavy shower, amounting to .42 inch, on the evening of the 4th, the week has been dry, with clear skies and ample sunshine; temperatures have also been higher than for some time heretofore.—J. J. Jones.

Puunene (5)—The weather has been warmer this week, and for the most part dry; all pumps are still shut down and there is a plentiful supply of water; the total rainfall was .29 inch.—J. N. S. Williams.

Wailuku (5)—The weather has been agreeable, with plenty of sunshine, warmer nights and light variable winds; the weekly mean temperature was 68 deg., and the total rainfall .40 inch.—Bro. Frank.

Kihui (3)—The weather is again warmer and dry; ditches are running low, necessitating pumping; the weekly mean temperature was 71 deg.; there has been no rainfall, nor do present indications offer any encouragement for rains in the immediate future.—Jas. Scott.

Kaunapali (6)—The weather has been fine and mild, with variable winds; there was a good shower on the night of the 4th, amounting to .40 inch; the weekly mean temperature was 67 deg.—Wm. Robb.

ISLAND OF OAHU.

Maunawili (7)—The fore part of the week was warm and dry, April 1st being exceptionally warm; the weekly mean temperature was 73 deg.; the latter part of the week was showery; the total rainfall being .74 inch.—John Herd.

Waimanana (6)—The weather last week was much warmer than heretofore.

AMERICANS DID IT

UNRAVELED FINAL TANGLE OF MOROCCO CONFERENCE

EMBASSADOR WHITE FURNISHED SOLUTION THAT BROUGHT THE AMICABLE UNDER- STANDING.

Algiers, March 27.—Embassador White and the others of the American delegation to the conference on Moroccan reforms were showered with compliments today for what is regarded as their sagacious intervention, which has assured a solution of the last remaining serious difficulty of the conference and a final settlement of one of the most delicate and complicated questions ever brought before the conference for decision.

Austria's police proposal yesterday left the German and French delegates still occupying totally opposite standpoints relative to the police inspection. White, seeing the danger of disagreement, took the initiative in an attempt to save the situation. He and his colleagues drew up a fresh scheme, laying down the proposition that the inspector shall report simultaneously to both the Sultan and diplomatic corps of Tangier, the latter having authority to order inquiries into the working of the Franco-Spanish police scheme, thus guaranteeing the carrying out of the conference's decision and safeguarding foreign interests and commercial transactions.

Before presenting this plan to the conference White approached the principal delegates. The British, Italian and Russian delegates unhesitatingly approved the proposal and promised it their fullest support. White then conferred successively with the French and German delegates, who agreed as to the practicability of the idea and consented to submit the scheme to their respective Governments, whose concurrence they consider to be virtually certain.

The effect on the conference of the acceptance of the American suggestion was immediately noticeable. A change came over the hitherto strictly diplomatic relations of the French and German delegates, and they were photographed together on the hotel veranda. One of the neutral delegates present at the moment remarked:

"That photograph constitutes the first signature of accord."
The successful action of the American delegates has made possible the speedy end of the labors of the conference.

Citizen: "It seems to me the streets ought to be cleaner than they are!"
Official: "Impossible! You can't flush them in cold weather!"
Citizen: "May be so; but don't you think they might be dry-cleaned?"—Detroit Free Press.
Tramp: "Say, lady, have you another flannel cake like the one you gave me yesterday?"
Kind Lady: "Did you like that one so much?"
Tramp: "No; but I want to half sole my other shoe."—Brooklyn Eagle.

In Persia there are no distilleries, breweries or public houses and native wine is the only intoxicating beverage used.

fore; showers on the 2d, 4th and 5th amounted to .30 inch.—A. Irvine.

Honolulu (7)—The weather during the past week has been dry, with high temperatures, rising barometer and easterly winds of moderate force; the weekly mean temperature was 74 deg., and the total rainfall .02 inch.—Local Office, U. S. Weather Bureau.

Ewa (7)—The weather has been very dry and warm all week; the weekly mean temperature was 73 deg.; there was no rainfall.—W. Lohrengel.

Wailanae (6)—The weather during the past week was much warmer, with variable winds; the weekly mean temperature was 74 deg., and the total rainfall .03 inch.—F. Meyer.

Waiawa (6)—The weather has been warmer during the past week, the weekly mean temperature being 72 deg.; there was no rainfall.—W. H. Waters.

Kahuku (6)—The weather during the past week has been considerably warmer than heretofore, the weekly mean temperature being 71 deg.; light showers occurred at intervals, amounting in all to .29 inch, and were accompanied by moderate trade winds.—R. T. Christophersen.

ISLAND OF KAUAI.

Makawili (6)—The weather here has improved greatly during the past week, having been generally clear with very warm days; the weekly mean temperature was 73 deg., and the total rainfall .50 inch.—Hawaiian Sugar Co.

Eleek (6)—The weather has been much warmer this week and has continued dry, with strong wind at intervals.—McBryde Sugar Co.

Koloa (6)—High temperatures have prevailed during the week, with light showers amounting in all to .53 inch; the weekly mean temperature was 70 deg.—P. McLane.

Lihue (6)—The weather conditions have improved, temperatures displaying a marked rising tendency and trade winds setting in during the latter part of the week; the weekly mean temperature was 69 deg., and the total rainfall .95 inch.—F. Weber.

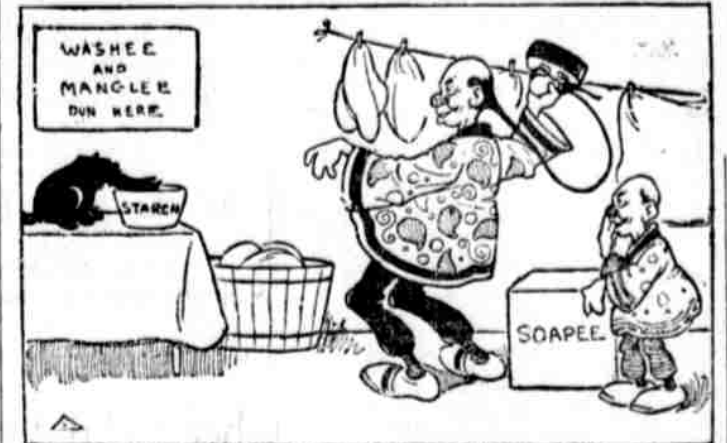

Kealia (6)—Showery weather and variable temperatures have prevailed here during the week; the weekly mean temperature was 70 deg., and the total rainfall 1.12 inches; heavy rains have fallen in the mountains.—W. Jarvis.

Kilauea (6)—The weather has been generally cloudy, with daily showers amounting in all to 1.47 inches; temperatures have been considerably higher, the weekly mean being 71 deg.; the wind has subsided.—L. B. Boreiko.

Hahale (6)—The weather has been warmer, with steady northeasterly winds; we had heavy rains on the 4th and 5th, amounting to 4.33 inches.—G. K. Deverill.

A. McC. ASHLEY,
Section Director.

LITTLE WUN LUNG'S JOKE.

HYLO LAMPS

TURN DOWN AT WILL.
TURNS DOWN TO ONE OR SIXTEEN CANDLE POWER.

Users of ordinary electric lamps have often, perforce, to use 16-candle power when 1-candle power would suffice. This means that the lamp wastes you money and more money in the course of a year than you suppose.

HYLO LAMPS on the other hand, save you money, for they enable you to turn your light down from 16-c.p. to 1 c.p. at will.

HYLO LAMPS ARE INVALUABLE FOR THE SICK ROOM, AND CAN BE USED IN ANY PLACE WHERE A COMMON LAMP IS USED.
